

Bonding at the touch of a finger for paper, plastic, foam, metal, wood, and more

Convenience, speed, and economy

Convenience and Speed

With any 3M aerosol adhesive you have a fistful of bonding power that goes to the job. Only a finger's touch puts a job-matched formulation to work on a wide variety of materials. There are no glue brushes to maintain and no half-empty, sticky cans to collect dirt.

3M introduced the first industrial aerosol adhesives about 40 years ago, and now you can select from a wide range of performance and application benefits. For example, controlled spray patterns of most 3M aerosols help minimize overspray, clean-up, and unused adhesive.

3M Foam Fast 74 and Hi-Strength 90 Spray Adhesives are also in cylinders for higher volume jobs.

Economy

As handy self-contained applicators, 3M aerosols save the expense of complex systems. Compact size and storage stability also help reduce storage costs.

Both aerosol and cylinder provide higher solids content than a comparable volume of canned solvent-based adhesive. The bottom line – you get more usable adhesive for your money.

3M aerosol adhesives contain no methylene chloride, CFCs, or 1,1,1-trichloroethane.

From mattresses to counter tops and more, 3M aerosol and cylinder adhesives are proven "power tools" for industrial assembly and maintenance.

(Customization Area)

Product	Key Features	Application Ideas
Blue 72 Spray Adhesive	<ul style="list-style-type: none"> • Repositionable pressure sensitive • Aggressive tack for fast assembly • Low soak-in for long lasting bonds • Controlled variable width spray pattern 	<ul style="list-style-type: none"> • Bond carpet to wood • Repair jute-backed carpet • Bond polyethylene film or foam • Temporary holding of fabric • Bond swimming pool liners • Seal polyethylene under concrete • Attach inner packing in packages
FoamFast 74 Spray Adhesive	<ul style="list-style-type: none"> • Reaches foam-tearing strength • Fast tack for fast assembly • Soft, non-dimpling glue line • Controlled variable width spray pattern 	<ul style="list-style-type: none"> • General upholstery foam bonding • Attach sound damping foam to metal • Knife edge bonding for foam shapes • Forming foam shapes by boxing • Forming foam shapes by edge turning • Bond fabrics to aircraft interiors • Core starting for mattress pad fabric
Repositionable 75 Spray Adhesive	<ul style="list-style-type: none"> • Repositionable temporary bonding • Adheres in seconds • Resists staining and wrinkling • Clear, smooth glue line 	<ul style="list-style-type: none"> • “Third hand” for lightweight materials • Temporary label attachment • Hold emblems during stitching • Hold T-shirts during silk screening • Create a template or pattern • Hold temporary paper masking • Picture matting
Hi-Tack 76 Spray Adhesive	<ul style="list-style-type: none"> • Strong, one-surface bonds • High temperature resistance • Bonds to polyethylene and polypropylene • Controlled variable width spray pattern 	<ul style="list-style-type: none"> • Attach nameplates • Bond pipe insulation wrap • Seal polybags • Bond door fabric in vans • Attach pool table fabric • Attach fabric to pottery base
Super 77 Spray Adhesive	<ul style="list-style-type: none"> • High coverage for general purpose • Versatile for bonding many materials • Long bonding range • Low soak-in for long lasting bonds 	<ul style="list-style-type: none"> • Variety of POP applications • Bond gaskets in water pumps • Attach decorative foils and films • Bond fabric to foam • Fasten motor coil wrapper • Attach grinding discs • Attach fabric to bulletin boards • Assemble easel-backed cards
Rubber & Vinyl 80 Spray Adhesive	<ul style="list-style-type: none"> • Fast neoprene-based contact adhesive • Plasticizer-resistant • Durable, high temperature resistant • Low misting precise spray 	<ul style="list-style-type: none"> • Bond all rubbers except EPDM • Bond most supported vinyl, leather • Bond rigid PVC to rigid PVC • Adhere many plastics and laminates • Attach rubber insulation to pipes • Attach door gaskets
Hi-Strength 90 Spray Adhesive	<ul style="list-style-type: none"> • High strength contact bond • One-minute dry time • High temperature resistance • Controlled variable width spray pattern 	<ul style="list-style-type: none"> • Bond decorative laminate • Bonding kick plates to desks • Attach plastic letters to wood • Bond countertop edge banding • Bond fabric to particle board • Bond countertop edge banding • Adhere polyethylene and polypropylene to metal or wood

Product Use: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M’s control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user’s knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user’s method of application.

Warranty and Limited Remedy: Unless stated otherwise in 3M’s product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. **3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user’s application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M’s and seller’s sole obligation will be, at 3M’s option, to replace the product or refund the purchase price.

Limitation of Liability: Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
